## REMARKS

A Notice of Allowance has been received in the above-identified application and the issue fee has been paid.

After payment of the issue fee the Applicants, while further studying the application and the allowed claims, concluded that a correction of the title would add clarity to the invention in view of the allowed claims. The minor errors/corrections were not detected until after the issue fee was paid despite the fact that Applicants had reviewed the application prior to paying the issue fee. Claims 1-16 were allowed in the Notice of Allowance and Applicants request amending Claims 1 and 4 to correct minor grammatical errors.

In Claim 1, line 17 at the end of the phrase "end'" removing the apostrophe as an apparent typographical error; line 18 at the end of the phrase "[[, where" removing the extra bracket and comma as mistakenly placed in the wrong position in the sentence; and line 19 at the beginning of the sentence " $\Delta F = [F_m - F_t]$ " adding a bracket between = and F. In Claim 4, line 2, correcting the spelling of "*Scenedesimus*" to read "*Scenedesmus*".

In view of the foregoing amendments, which are minor grammatical errors and no new matter has been added to the application, it is believed that the application is now in condition to issue.

In order that the patent may issue free of any possible ambiguity, Applicants respectfully request that this amendment be entered.

Dated: May 19, 2007.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Paul J. White", is written over a horizontal line.
